

How To... Use This Notebook

This notebook has been put together as a reference for you. The intention of the notebook is to provide up to date PTSA information to help you execute a successful project. Also included are the notes and ideas from previous chairpersons. This note section is divided out by year. Please add your notes to the top of this section so that those that follow you may benefit in the same way.

At the end of the school year you will be asked to return this notebook to the PTSA room so that it can be prepared for next year's volunteers.

Thank you in advance for your time and consideration.
